Dear Ronald

Thank you for your letter dated 19 July 2023, noting your intention to step down from the Advisory Group of The University of Western Australia's WA Centre for Mental Health Research (WACMHR) and the subsequent dissolution of the Group.

UWA is extremely grateful for all the passion, determination, and commitment that you provided to Young Lives Matter Foundation (YLM) in the first instance and then WACMHR. I want to highlight your championship of the creation of UWA's Living Room. Our students' mental wellbeing is undoubtedly better off from your input to this program and the space on campus. UWA will continue to recognise that the concept and suggestion came from you in your capacity as Chair, Young Lives Matter.

UWA's 110-year mission is to improve the welfare and prosperity of our community and through your efforts as Chair, YLM and Chair, WACMHR you have supported our local, national, and global communities to improve their knowledge and understanding of mental wellbeing.

Once again, on behalf of the students, staff, and Senate of UWA – thank you.

Yours sincerely

Professor Amit Chakma
Vice-Chancellor
